

Gak Recipe

Mix in a large mixing bowl:

- ♥ 2 cups Elmer's glue
(try clear glue as a fun alternative)
- ♥ 1 cup warm tap water
- ♥ 1-2 drops liquid water color
(food coloring works, but stains hands)

In a separate bowl mix:

1 cup warm water with 1 teaspoon of Borax

While stirring the glue in the mixing bowl, slowly add a little of the Borax solution. You'll feel the long strands of molecules starting to connect. It's time to abandon the spoon and use your hands to do the serious mixing. Keep adding the Borax solution to the glue mixture (don't stop mixing) until you get a perfect batch of Gak! Gak isn't as easy to make as playdough but it is fun, fun, fun! Gak is fun to cut with plastic scissors.
